

STORAGE TANK MANAGEMENT

Linebach ■ Funkhouser, Inc.
environmental compliance & consulting

Tanks can be a problem.

You want simple solutions for spill management and closure. You want a partner with state reimbursement experience.

You need Linebach ■ Funkhouser.

Service Matters from start to finish.

Release Notification & Assessment

LFI partners with tank owners to ensure the efficiency of the entire notification and assessment process.

Risk-Based Corrective Action Closure (RBCA)

LFI optimizes impacted site closure activities, maintains the property's highest use, and minimizes the corrective action costs. Our goal is to secure "No Further Action" status for the site.

Reimbursement

LFI assists clients seeking reimbursement of costs associated with corrective action activities in states where reimbursement fund programs are in effect.

Spill Prevention

LFI provides advice on the most cost-effective solutions for spill control. Plans can be developed as stand-alone programs or easily adapted to integrate with a facility's existing Combined Regulatory Plan.

Key Services

- Project Oversight
- Investigation and Assessment
- Tank Closure and Removal
- Upgrading and Replacement
- Regulatory Notification
- State-Certified Contractor Solicitation and Selection
